The Safe Side

"Those of us who are wise," says a well-known doctor, "will keep on the safe side by using only those foods that contain everything Nature puts into them."

A bit of good advice, that. Many foods, as usually prepared, especially cereals, are lacking in the vital mineral elements-phosphate of potash, etc., which the body must have for perfect balance and health.

There is one food,

Grape-Nuts

which is rich in these elements, containing, as it does, all the nutriment of whole wheat and barley. It is a delicious food, affording the sweetness of dextrinized wheat and the distinctive flavor of malted barley.

Every table should have its daily ration of Grape-Nuts
